WORK EXPERIENCE

Mountain Top Secondary School,

Owerri, Imo

Computer Science Teacher, Nov 2025 – To Date

- Teaching core computer science concepts including basic programming, digital literacy, and safe internet practices.
- Designed lesson plans, assignments, and practical activities aligned with national education standards.
- Guiding students in hands-on computer operations, improving their confidence and proficiency with technology tools.
- Fostering a supportive learning environment that encouraged curiosity, problem-solving, and responsible technology use.

Kunoch Digi, Cybersecurity Tutor, Feb 2025 – Sep 2025

Owerri, Imo

- Facilitated learning session on Cybersecurity and Digital Protection, emphasizing real –world applications and online safety.
- Developed structured course materials and interactive content for student engagement.
- Mentored learners on ethical hacking and defensive cybersecurity principles.

3MTT (Alvan Ikoku Federal University), Cybersecurity, Sep 2024 – Nov 2024

Owerri, Imo

- Taught key concepts in cybersecurity, including threat identification, digital safety and network defense fundamentals
- Guided trainees through practical labs on phishing awareness, password hygiene and system hardening
- Collaborated with other facilitators to mentor over 50 participants, leading to increased awareness of digital security best practices.

Federal University of Technology Owerri, Project Lead, Jan – Oct 2025

Owerri, Imo

- Led a final year project team focused on practical software design and implementation.
- Supervised research documentation, report compilation and presentation preparation for defense.
- Applied problem solving and project management skills to achieve measurable academic outcomes

Rock of Ages Lesson Center, Mathematics Instructor, Sep 2019 – Oct 2020

Owerri, Imo

- Tutored students in Further Mathematics and General Mathematics simplifying complex topics through step by step problem solving
- Prepared lesson materials aligned with WAEC and JAMB syllabuses, improving students' academic performance and confidence in quantitative subjects
- Organized weekend revision classes to strengthen students analytical reasoning and examination techniques

EDUCATION

Federal University of Technology, Owerri

Imo, Nigeria

Bachelor of Science in Cybersecurity

TECHNICAL SKILL(s)

- Cybersecurity Tools: Kali Linux, Suricata, Snort, Wireshark, Metasploit
- Networking: TCP/IP, Firewalls, VLANs, Routing & Switching Essentials
- Programming: Python (Automation, Web Scrapping, APIs, Flask)
- Web Development: HTML, CSS, JavaScript, React, Node.js
- Cloud & DevOps Basics: Git/GitHub, Linux Server Administration, Shell Scripting
- Threat Detection: Phishing Analysis, Malware Indicators, Intrusion Detection Systems
- Digital Forensics Fundamentals
- Database Management: PostgreSQL, MySQL
- Teaching & Curriculum Development

SOFT SKILL(s)

- Problem-Solving & Critical Thinking
- Communication & Presentation Skills
- Classroom Facilitation & Instructional Design
- Research & Documentation
- Leadership & Team Coordination
- Analytical Reasoning
- Time Management & Organization
- Adaptability & Continuous Learning

LEADERSHIP SKILL(s)

- Prayer Secretary Mountain of Fire and Miracles Ministries Campus Fellowship FUTO Chapter – 2022
- Welfare Secretary Mountain of Fire and Miracles Ministries Campus Fellowship FUTO Chapter – 2022
- Pioneer Independent Students Electoral Commission Chairman (National Association of Cybersecurity Students) – NACS FUTO Chapter – 2022
- Secretary General National Association of Cybersecurity Students – NACS FUTO Chapter – 2023
- Student Representative – IT Service Desk Africa – 2023
- Rotaract Imo State Public Image Representative – 2025
- Awards and Recognition Chair – 41st Installation Rotaract Club of FUTO – 2025
- Public Image Chair II Rotaract Club of Amakohia and Akwakuma – 2025

TOOLS & TECHNOLOGIES

- Google Workspace, Microsoft Office
- Git & GitHub
- VS Code
- Postman
- Chrome DevTools
- Virtual Machines (VMware/VirtualBox)

PERSONAL PROJECT(s)

Refer to GitHub link above:

- Development of a Web Application of the detection of SMS and Email Phishing Messages using Supervised Machine learning
- Simulation and Detection of Cypher Injection in a graphical based network system using Open Source Intrusion Detection System
- Development of Chrome Browser Extension for effective scan of Urls

CERTIFICATION(s)

- Linux Essential – Calretian University of Nigeria – July 2024
- Endpoint Security – NITDA IT Training Center – October 2024
- Networking Devices and Initial Configuration – November 2024
- Ethical Hacking – Southwest Resource Centre Academy – October 2024
- CyberThreat Management – Southwest Resource Centre Academy – October 2024
- CyberOps Associate – University of Port Harcourt – August 2025
